

## HONING SOLUTION

Smith's specially formulated Honing Solution is non-petroleum based and features built in stone cleaning agents and rust/corrosion inhibitors. It is excellent for lubricating your Arkansas or Diamond Stone when sharpening. Remember you should never use an Arkansas Stone without some kind of lubricant, or you will clog up the pores and it will not sharpen properly. Diamond Stones can be used dry, but we recommend that you use a lubricant for better performance. Smith's Honing Solution is specially formulated for use on our diamond stones. Comes in a plastic bottle. Packaged in a clamshell.

Cat. No.	Size	Product Includes
HON1	4 oz.	<ul style="list-style-type: none"> <li>• Plastic Bottle</li> <li>• 4 oz. Solution</li> </ul>

## POCKET PAL-POCKET STONE DIAMOND STONE

Smith's Diamond pocket stone is perfect for sharpening your knives and hooks. The 3" stone is coated with Medium grade diamonds and has a built in hook-sharpening groove. It comes with its own fabric storage pouch, which features a fold over flap and belt loop.

Cat. No.	Stone Size	Stone Grade
DS3	3" x 1" x 1/4"	Diamond

## DIAMOND RETRACTABLE KNIFE & TOOL SHARPENER

Smith's Diamond Retractable features an unbreakable diamond coated steel rod, which is specially designed to sharpen all types of knives....including serrated. The rod is reversible and can be adjusted to variable lengths and it has a sharpening groove for hooks. The shirt pocket clip allows for easy storage. Multiple layers of medium grit Monocrystalline diamonds makes sharpening quick and easy, while still giving you that razor sharp edge on your knives, tools, or hooks. The unit is light, compact, but durable. Packaged in a clamshell.
